OBJECTIVE

I am a Computer Science graduate with practical experience in Java, Spring Boot, and React. I enjoy building web applications and I am eager to start my career by contributing to real-world projects and growing in a professional environment.

EDUCATION

Loknayak Jai Prakash Institute of Technology, Chapra
Bachelors of Technology in Computer Science and Engineering
CGPA: 8.78/10

Dec 2021 – June 2025

SKILLS

Programming Languages	C, C++, Java, SQL
Technologies/Frameworks	HTML5, CSS3, Tailwind CSS, JavaScript, React JS, MySQL, Spring Boot
Developer Tools	Git, GitHub, VS Code, IntelliJ, Postman
Soft Skills	Problem-solving, Project ownership, Teamwork, Adaptability

PROJECTS

Project Management System || [GitHub](#)

Tech Stack: React JS, Tailwind CSS, Shadcn/ui, Java, MySQL, Spring Boot, Spring Security, JWT, Spring Data JPA

- I developed a Project Management System using **ReactJS(frontend)** and **Spring Boot(backend)**, to help teams efficiently manage projects, track tasks, and collaborate in one unified platform.
- This system streamlines project workflows and integrates essential features like **task creation, task assignment, progress tracking, and team collaboration**, with **secured authentication** using **Spring Security** and **JWT** for session management.

Zapvi (Redesigned) - E-Commerce Website for Custom Phone Cases || [GitHub](#) [Live](#)

Tech Stack: HTML, CSS, JavaScript, GSAP

- Participated as an individual competitor in **the Reimagine Hackathon**, organized by **Sheryians Coding School** and reimaged the website of **Zapvi**.
- Designed and developed a **modern, user-friendly, animated and fully responsive** e-commerce website from scratch.

EXPERIENCE

Salesforce Developer Virtual Internship | Salesforce, SmartInternz

Dec 2023 - Jan 2024

- Completed a **4-week** intensive training program, gaining in-depth knowledge of **Salesforce fundamentals, organizational setup, and process automation**.
- Hands-on experience in **Apex programming, debugging, and testing** using VS Code and CLI tools.
- Implemented **process automation** using **Salesforce**, reducing manual effort and improving **CRM efficiency**.

CERTIFICATIONS

- Complete Java Developer – TELUSKO. [Show credential](#)
- Programming in Java – NPTEL. [Show credential](#)
- JavaScript - Spoken Tutorial Project, IIT Bombay. [Show credential](#)
- Database Management System – NPTEL. [Show credential](#)
- Salesforce Developer Virtual Internship – Salesforce. [Show credential](#)
- Problem Solving through Programming in C – NPTEL. [Show credential](#)

HOBBIES

- Drawing
- Video Editing
